

TARANG RASTOGI

Frontend & Python Developer

Meerut, Uttar Pradesh, India | +91-9389293196 | tarangrastogi.dev@gmail.com
LinkedIn: [linkedin.com/in/tarangrastogi](https://www.linkedin.com/in/tarangrastogi) | GitHub: github.com/tarang-rastogi

PROFESSIONAL SUMMARY

Detail-oriented BCA final-year student specializing in Cloud Computing and Cyber Security, with proven hands-on experience in frontend and Python development. Adept at building responsive web interfaces, executing robust API integrations, and applying OOP principles to real-world applications. Demonstrates strong problem-solving capabilities with a continuous drive to learn and deploy scalable cloud technologies.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), HTML5, CSS3, Python
- **Frontend & Design:** React.js, Flexbox, CSS Grid, Responsive Web Design
- **Cloud & DevOps:** AWS (EC2/S3), Microsoft Azure, Linux Administration, Git, GitHub
- **Core Competencies:** Data Structures & Algorithms, REST API Integration, OOP, Debugging & Troubleshooting

PROFESSIONAL EXPERIENCE

Oasis Infobyte (OIBSIP) | *Python Developer Intern* March 2026 – April 2026

- **Engineered GUI Applications:** Developed a desktop BMI Calculator and Password Generator using Python (Tkinter) with strict data validation.
- **Integrated REST APIs:** Built a real-time Weather Application integrating REST APIs to fetch, parse, and handle live JSON data.
- **Optimized Architecture:** Applied core OOP principles across multiple script modules to guarantee codebase scalability and maintainability.
- **Version Control:** Maintained project documentation and code repositories utilizing Git and GitHub within a remote environment.

TECHNICAL PROJECTS

Personal Portfolio Website | *React.js, JavaScript, HTML5, CSS3* [GitHub Repository](#)

- Architected a fully responsive digital portfolio using React.js, designing a seamless multi-section UI configuration.
- Engineered cross-device layouts with custom styling frameworks, successfully scaling layouts from desktop down to mobile.

Weather API Integration Application | *Python, Requests, OpenWeatherMap* [GitHub Repository](#)

- Developed a standalone Python utility leveraging the Requests library to deliver live weather diagnostics for global cities.
- Implemented robust error handling and exception logging protocols for API request failures to maximize stability.

EDUCATION

Bachelor of Computer Applications (BCA) | *Cloud Computing & Cyber Security* 2023 – 2026
IIMT University, Meerut | **CGPA: 8.9 / 10**

CERTIFICATIONS

- Introduction to Generative AI Studio – Simplilearn (Google Cloud)
- Agent AI Starter Course – Saumya Singh
- Cloud Computing / Linux Administration with Scripting – IIT Kanpur (E & ICT Academy)
- Microsoft Azure Fundamentals – IIT Kanpur (E & ICT Academy)
